

# 072Coin Whitepaper

"From a meme, to a movement, to real-world utility, to legend."

## 1. Introduction

072Coin is a meme coin born in Japan for those who love the adult industry and doujin (indie creator) culture.

I originally came from a completely different world, but I stumbled upon the genre of doujin voice works and began creating my own content.

As I continued, I received overwhelming support and came to realize that doujin wasn't just a "hobby" — it was a way of life.

I wanted to create a place where like-minded people could connect and share what they love. That's how the idea for 072Coin came to life — a coin made by and for the community.

It started as a joke, but the more I researched and experimented with blockchain, the more I became convinced: this is a technology full of potential.

## 2. Vision & Purpose

I have a dream called "072World" — a digital "hideout" where people can share and talk about adult interests without fear of judgment.

A place to laugh, to express yourself freely, and to connect with others.

And in this world, the currency should be a little weird, yet trustworthy.

072Coin was designed to serve as the currency of this world — a token to buy goods, unlock bonus content, and support fellow creators.

Someday, I hope it will power a whole cultural ecosystem.

### 3. Token Information

- Name: 072Coin
- Ticker: Z72
- Network: BNB Chain (BEP-20)
- Total Supply: 100,000,000,000 tokens
- Decimals: 18
- Contract Address: 0x2B7087D03Bc40Ebd2684Dd2d3B79bd1e3eBD0265
- Initial Liquidity: 100 million tokens (0.1%) to be paired with BNB and listed on DEX

### 4. Token Distribution & Release Strategy

To prevent over-saturation, 072Coin caps its maximum annual token release at 5% (5 billion tokens).

#### **Initial Distribution (planned or in progress)**

- 100 million tokens for DEX listing
- 3 million tokens each for paid subscription supporters (airdrop)
- Future campaigns, NFT integrations, DAO prep, and more

All releases will be recorded on-chain for transparency. Some LP tokens may be locked or burned.

While the annual max is 5 billion, this does not mean we'll always release the full amount. Distribution will be adjusted based on community growth and activity.

Most of the tokens will be used for community rewards, staking, events, and bonuses — not dumped into the market all at once.

The goal is to balance fun and trust with a carefully designed token economy.

**Furthermore**, when adding liquidity (LP) after the initial launch, we commit to doing so at rates no lower than the original listing pair (100 million tokens : ¥10,000, approximately \$70 at launch).

For example, in the second year, we may add liquidity at 100 million tokens : ¥20,000, and in the third year, ¥30,000, and so on — gradually increasing to reflect the project's growth.

Please note: if liquidity is added while the market price is high, the pool's average price may adjust downward slightly.

This is a normal behavior of automated market makers (AMMs), not price manipulation.

Adding liquidity at increasing price points helps stabilize the market and supports the long-term sustainability of the project.

## 5. Community Engagement

072Coin aims to be a “fun, weird, but strangely lovable” token.

Rather than aiming for perfection from the start, we want to grow slowly with our fans.

Plans for the future include:

- Secret bonus audio content for holders
- Community events and giveaways
- User-driven governance votes
- Gradual steps toward DAO development

## 6. Roadmap

- **2025:** Token launch, DEX listing, initial airdrops, website and SNS launch
- **2026:** Community rewards, campaigns, begin NFT integration planning
- **2027 and beyond:** Introduce Z72 payment support for products, DAO launch, expand 072World

## 7. Risks & Disclaimer

072Coin is not a financial product or investment vehicle. Its value and use may fluctuate depending on market and cultural factors.

- You participate at your own risk
- We take no responsibility for losses from smart contracts or exchanges
- No guarantees of future profits or utility
- Just laugh, enjoy it, and maybe use it — that’s our real goal

**072Coin is intended purely for entertainment and cultural engagement purposes, and is not designed or promoted as a financial instrument in any jurisdiction.**

## 8. Final Words

072Coin was born from a joke, but it won't end as one.

We believe that joy, creativity, and culture can come from the most unexpected places.

And we're here to prove it — with sincerity and a smile.
